

## Activities: 10 February - 16 February 1994

- No Calibration Activities
- GO Activities
  - Proposal 5320: 2 ACQ/BIN successful - target coordinates were OK
  - Proposal 5444: Blind-pointing SNAP
    - 1 failure: no signal
    - 2nd successive failure for this proposal (no successes so far)
    - in both instances proposer-specified target coordinates in error
- Proposal 5267 - FOS ERO Observations of M87
  - ACQ/BIN successful
  - counts in peak pixel approximately factor of 2 lower than predicted based on pre-COSTAR values
  - science signal much lower than expected; under investigation

## Publications

- Cycle 1 and Cycle 2 Discriminator Settings, CAL/FOS-100, C. Taylor and A. Kinney
- Pre-COSTAR FOS Aperture Transmissions for Point Sources (update of ISR 106), CAL/FOS-120, R. C. Bohlin
